# 100 Women<sup>2</sup>

## Women helping Women

‘What you are prepared to walk past is what you are prepared to tolerate.’

‘Help a woman to rise and you help your community to rise.’

### What is 100 Women<sup>2</sup>

- 100 women to walk 100km's to raise \$100,000 for causes associated with rising women
- Our long-term vision is for this walk will be repeated many times hence the 100 Women<sup>2</sup>

*Our initial target is set at raising A\$100,000*

We need your help though. We need women, beautiful, gorgeous women of all ages who wish to walk and raise funds.

### Aim

A multi-layered program

- To raise awareness and increase our consciousness about issues that directly affect women including homelessness, the gender pay gap, poverty, domestic violence and war.
  - If you have a women related issue that is close to your heart or know a woman who needs your help then please walk for that purpose!
  - See the ‘how do I do this?’ section in this briefing paper.
- To stimulate dialogue about charities that we walk for.
- To raise A\$100,000 for distribution to programs related to women in Australia.
- To raise the profile of women in leadership roles across the private, community and public sectors
- To scale the program across multiple walks, multiple states and multiple countries.
- Each of the 100 women who walks commits to raising a minimum of \$1,000
- To build a web of community, locally and globally
- To increase social cohesion
  - Desmond Tutu once stated; “Differences are not intended to separate, to alienate. We are different precisely in order to realise our need of one another.”

- Strategies to build social cohesion decrease our separateness and increase our dependence upon one another improving the sharing of skills and resources.
- To increase health and resilience amongst women in particular
- To stimulate dialogue about issues that matter to women

‘When we invest in women and girls, we are investing in the people who invest in everyone else.’

Melinda Gates

‘When we invest in women, we invest in a powerful source of global development.’

Melinda Gates

‘In order for us to advance as a safe more equitable society women also need the support of really good men.’

## How do I become one of the 100 Women<sup>2</sup> walkers?

Every woman is welcome. We are a community of women helping women and we welcome you. We just need a few agreements to hold us all together.

- As a part of this community, we ask you to be kind and leave all egos behind. Reaching out to support each other is our way. No gossip allowed!
- We ask you to maintain the highest levels of integrity. If you are not sure about a decision or action there are only two questions to ask.
  1. Is this kind to me, to our community, to the planet and to other people?
    - If it is a no then don't do it!
  2. Does this have the highest level of integrity?
    - How would I feel if this was one the front page of the paper? If my friends found out? If the movement found out about it? If Mary found out about it? If you feel uncomfortable about your action in any way... don't do it!

## FAQ's

### How do I have to clock up my 100kms?

- You can do your 100kms solo or as a partner with others
  1. Walk where you want and when you want. I have walked in the bush but also around an art gallery and into town.
  2. 3.33km per day means that you will cover your 100kms in a month. Most of us walk this every day anyway.
  3. Link your walking to a Go Fund Me page and track your kms via Strava or any app that counts your kms. You may like to post your daily walk km's on your Go Fund Me fundraising page to create excitement and for integrity.
  4. It does not matter how long you take but setting a time frame for yourself does help with motivation. Make it doable to suit you and your lifestyle though. No stress here. Just a little effort and fun.

### Who do I raise funds for?

- Each woman is invited to choose her own women centric charity. If the charity is already registered with Go Fund Me it makes the process easier.
- **or you may want to walk to raise money for a specific woman in need.**
  1. You can walk for a specific woman if you wish but funds won't be tax deductible which may influence some donors and a separate Go Fund Me page has to be set up. You will need an Australian bank account and please research any tax implications.
- Go Fund Me has an extensive help desk.
- We have two teams walking at the moment.
  1. [Northern Rivers Womens and Child Community Centre in Lismore](#)
  2. [Hobart Women's Shelter](#)

### Go Fund Me

- At this stage are using the [Go Fund Me](#) crowd sourcing platform to raise funds.
- You can join an existing team member or create a new fundraising. Please head up your Go Fund Me page with the following title:

    - Eg. 100 Women<sup>2</sup>: Women helping Women. 100/10, or whatever number you are in the series of 100.
- Every Go Fund Me page is to use the same following opening script to help build the profile of our community and link us together. The script for you to copy and paste into your Go Fund Me page is..

**Are you yearning to make a difference? Would you like to join other like-minded women to help women in need? Then maybe you would like to join us as one of 100 Women who are committed to walking 100kms.**

Each woman who walks commits to raising \$1,000. As a collective, this means we will raise **\$100,000** with all proceeds supporting other women in need. **That is making a difference...** and you can walk where you want and when you want. Walking 3.33 km per day means you will cover 100kms in one month. Most of us would walk this every day! This is designed to be doable, fun and make a difference!

### **Walking for Women (inset who you are walking for with a short paragraph based on the following)**

The first walk for 100 Women<sup>2</sup> has begun. Over the next (insert days,) I will be walking 100kms to raise \$1,000 to support women (insert a short sentence about why you are walking.)

EG. The first walk for 100 Women<sup>2</sup> has begun. Over the next 10 days I will be walking 100kms to raise \$1,000 to support women affected by the floods in the Lismore area.

# Facing some facts about women

In can be hard to face the facts but let's 'people up' and change our world.

## Gender Equality

## Some Tasmanian facts

Locally more than 120,000 Tasmanians live below the poverty line. As housing costs rise, it is more difficult for Tasmanians earning low and moderate incomes to find affordable housing. The chronic shortage of affordable rental housing in Tasmania is a major cause of homelessness and a barrier to pathways out of homelessness.<sup>i</sup>

### On any one day in Tasmania

- 36 requests for help go unassisted.
- One third of requests involve family or domestic violence.
- Children who experience homelessness have an increased risk of becoming homeless in later life.
  - 13% of our reported homeless people in 2016 were children under the age of 12.
- In 2019–2020 more women than men requested assistance from homelessness services – 56% women, 44% men.<sup>ii</sup>

*We would be honoured if you would consider joining us, as a promoter, or a walker, or fundraiser in service to our local and global community.*

### Other ideas/Discussion Points

- The underrepresentation of women in Board and senior leadership positions is aiding the gender disparity.
- [The Gender Equity Insights series](#), undertaken by the Bankwest Curtin Economics Centre in partnership with the Workplace Gender Equality Agency research shows that increasing the representation of women in executive leadership roles is associated with declining organisational gender pay gaps.
- Having equal representation of women on governing boards leads to a 6.3 percentage point reduction in the gender pay gap for full-time managers.
- Organisations with balanced representation of women in executive leadership roles have pay gaps half the size of those with the least representation of women in leadership.

Reports in 2018 and 2019 build on these findings, highlighting the critical role of leadership in decision-making and driving organisational change towards gender equity. Having more women in key decision-making positions delivers better company performance, greater productivity and greater profitability.

- Globally – if we continue on our current trajectory women will gain parity with men in 208 years.<sup>iii</sup>
- Women and girls make up 51.1 % of the Tasmanian population, but are consistently under-represented in senior leadership positions in our community.
- The under-representation of women in higher paying senior and leadership roles is due to discrimination, conscious and unconscious bias in recruitment and promotion processes, and women's perceptions of their own capabilities for leadership.

- In May 2018, the gender pay gap in Tasmania was 9.7% ie women on average earn \$137.40 less than men per week.<sup>iv</sup>
- On retirement, the average superannuation balance of Tasmanian women is 57.5% of the average balance of Tasmanian men.<sup>v</sup>
  - One of the fastest growing cohorts of the population facing homelessness are women over the age of 60.
  - In 2016 18% of people experiencing homelessness in Tasmania were over the age of 55.
- 80.6% of sole parents in Tasmania are women.<sup>vi</sup>
  - 13% of our reported homeless people in 2016 were children under the age of 12.
