

How to Upload a Reel onto your iPhone:

Here I'll assume that you've already installed the [Google Drive app](#).

I will be sending your Reel file on your Email, wherein I will provide a link of your Reel file on my Google drive. Which will give access or sharing properties so that you will be able to open or access it and download the said file/reel.

1. You will be receiving an email where you are given an access the following item or file.
2. Open that file with your Google Drive, by then you are able to view the reel file.
3. Tap the 3 dots (More option) on the upper right corner and select "Send a Copy".
4. Tap "Save Image" or "Save Video".
5. A dialogue box saying "Preparing to export" will pop up and your video will be saved to your Camera Roll after the box disappears.
6. On the Camera Roll, find the saved file/reel then tap Share files, to share which platform you want to post it.
7. For posting to Instagram directly, Go to IG app, tap + Icon and select Post, Reel, etc. Then find the saved file/reel in your Camera Roll and post.
8. For posting to Facebook directly, Go to FB app, Create Post, tap Photo/Video and select the saved file/reel in your Camera Roll and post.
